

Advertisement for Walk-in Interview/ Test

Assam Electronics Development Corporation Limited, Industrial Estate, Bamunimaidan, Guwahati -21 a.k.a AMTRON requires various human resources for implementation and operation of ongoing projects as mentioned below. Interested candidate may walk in for the same:

1. Network Engineer**Post: Level-1 Network Engineer**

Job Profile	Skills and experience required	Qualification
Design and maintenance of Routing, Switching, Wireless (Wi-Fi) infrastructure	Working Knowledge of Router, Layer 2/3 Switch, Access Points, LAN, WLAN, Point-to-Point Point-to-Multipoint RF devices and Cabling Experience: 0-2 years	Educational Qualification B.Tech/B.E/MCA/M.Sc (IT/CS/Electronics)/BCA/B.Sc (CS/IT)/JE(CS/IT) Professional/Global Certification- CCNA/JNCIA/equivalent (preferred)

Post: Level-2 Network Engineer

Job Profile	Skills and experience required	Qualification
Supporting Routing, Switching, Wireless (Wi-Fi) infrastructure, RF networks	Hands on Routing and Switching Protocols, WLAN Design, LAN, WLAN, Cabling standards Experience: 2-4 years	Educational Qualification B.Tech/B.E/MCA/M.Sc (IT/CS/Electronics)/BCA/B.Sc (CS/IT)/JE(CS/IT) Professional/Global Certification- CCNA/JNCIA/equivalent (certification validity not mandatory)

Post: Level-3 Network Engineer

Job Profile	Skills and experience required	Qualification
Design, maintenance and troubleshooting of Routing, Switching, Security, Wireless (Wi-Fi) Infrastructure	Hands on Advance Routing, Switching and Security Protocols, UTM, WLAN Design, LAN, WLAN, Cabling standards Experience: Minimum 4 years	Educational Qualification B.Tech/B.E/MCA/M.Sc (IT/CS/Electronics)/BCA/B.Sc (CS/IT)/JE(CS/IT) Professional/Global Certification- CCNA/JNCIA/Security Certification/equivalent

2. Software Engineer

Post: Level-1 Software Engineer

Job Profile	Skills and experience required	Educational Qualification
System analysis, design and development, testing	Programming, system analysis and design, database design, documentation Experience: 1-2 years	B.Tech/B.E/MCA/M.Sc (IT/CS/Electronics)/BCA/B.Sc (CS/IT)/JE(CS/IT)/DOEACC 'A' Level

Post: Level-2 Software Engineer

Job Profile	Skills and experience required	Educational Qualification
Software design, development, testing, documentation	Programming, system analysis and design, OOAD, database design, software testing, documentation, writing SRS, User manual etc. With 2-4 years of professional experience in the field	B.Tech/B.E/MCA/M.Sc (IT/CS/Electronics)/BCA/B.Sc (CS/IT)/JE(CS/IT)/DOEACC 'A' Level

Post: Level-3 Software Engineer

Job Profile	Skills and experience required	Qualification
Software project management, software design, testing, quality control, documentation	Software project management, system analysis and design, OOAD, database design, software testing, software quality control, preparing project proposal, SRS, User manual and other technical documents etc. With minimum 4 years of professional experience in the field.	Educational:- B.Tech/B.E/MCA/M.Sc (IT/CS/Electronics)/DOEACC 'B' Level Professional/Global Certification- PMP

3. Web Developer

Post: Level-1 Web Developer

Job Profile	Skills and experience required	Educational Qualification
Web site and mobile apps design and development	HTML5, CSS3, PHP, JavaScript, JQuery, MySQL , Pay pal/Ecommerce and other related server technologies	B.Tech/B.E/MCA/M.Sc (IT/CS/Electronics)/BCA/B.Sc (CS/IT)/JE(CS/IT)/DOEACC O/A Level

	With 1-2 years experiences in the field.	
--	------------------------------------------	--

Post: Level-2 Web Developer

Job Profile	Skills and experience required	Educational Qualification
Web site and mobile apps design and development	<p>HTML5, CSS3, PHP, JavaScript, JQuery, MySQL</p> <p>Server side scripting with PHP/Java,</p> <p>Pay pal/Ecommerce and other related server technologies</p> <p>Minimum of 3 years database development experience (MySQL preferred), Minimum 3 years experiences in web application development using PHP/Java</p>	<p>B.Tech/B.E/MCA/M.Sc (IT/CS/Electronics)/BCA/B.Sc (CS/IT)/JE(CS/IT)/DOEACC 'A' Level</p>

4. Graphic Designer

Post: Level-1 Graphic Designer

Job Profile	Skills and experience required	Qualification
Designing banners, advertisement, brochures, images etc.	<p>Technical skills to use design software programs such as GIMP, Photoshop or Quark Xpress, Adobe InDesign, MS-Powerpoint.</p> <p>Knowledge about design elements such as color and composition and having artistic ability and creativity.</p> <p>With 1-2 years of experience</p>	<p>Educational:- Graduate in any discipline.</p> <p>Professional /Global Certification-Diploma in Graphics designing.</p>

Post: Level-2 Graphic Designer

Job Profile	Skills and experience required	Educational Qualification
Designing web content, banners, advertisement, brochures, images, animation etc. video editing etc.	<p>Technical skills to use design software programs such as GIMP, Photoshop or Quark Xpress, Adobe InDesign.</p> <p>Technical skills to use animation and video editing tools.</p>	<p>Educational:- Graduate in any discipline.</p> <p>Professional /Global Certification-Post Graduate Diploma in Multimedia and Animation.</p>

	<p>Handling Adobe Dreamweaver for web designing.</p> <p>Knowledge about design elements such as color and composition and having artistic ability and creativity.</p> <p>Minimum 2 years of experience.</p>	
--	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	--

5. Content Writer

Post: Level-1 Content Writer

Job Profile	Skills and experience required	Qualification
Writing a wide variety of content from articles to reviews for the Web.	<p>Creative writing skills.</p> <p>Experience in writing contents for Web.</p>	Educational: - Post Graduate in English OR Graduate in English followed by 2 yrs course in Mass Communication & Journalism

Post: Level-2 Content Writer

Job Profile	Skills and experience required	Qualification
Writing a wide variety of content from articles to reviews for the Web.	<p>Creative writing skills.</p> <p>Technical documentation</p> <p>Experience in writing contents for Web.</p>	<p>Post Graduate in English</p> <p>or</p> <p>Graduate in English followed by 2 yrs course in Mass Communication & Journalism</p> <p>Professional Global Certification- Diploma in Creative Writing or similar courses</p>

6. Software Developer

Job Profile	Skills required	Educational Qualification and Experience
<p>developing applications using PHP/ MySQL or JAVA/ Android,</p> <p>and who can build from scratch with a dedication</p>	<p>1. Good Knowledge of LAMP Architecture, Linux Distributions (Centos/ Ubuntu/ RedHat), Apache, MySQL, PHP</p> <p>2. DHTML, HTML5, CSS3,</p>	<p>B.Tech/ B.E (Computer Sc)/ MCA</p> <p>Salary negotiable based on work Experience:</p>

to delivering high quality work and adhering to timelines. Should be able to analyse requirements and provide solution with confidence. Must be a good team player, good learner and self starter.	<p>JQuery,JavaScript, AJAX</p> <p>3. C, C++, Core Java, Servlets, JSP</p> <p>4. Desirable Experience:</p> <p>Basic LinuxAdministration, XML, JSON, SOAP and REST, API Development, Any modern MVC Design & Frameworks (Codeigniter/ Zend/ Symphony/ Larave/ CakePHP), Android SDK</p>	
----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	--

7. System Engineer

Post: Level-1 System Engineer

Job Profile	Skills and experience required	Qualification and Experience
System administration	<p>Basic knowledge of Linux/Windows Operating system.</p> <p>Installation of various flavour of Linux and configuration.</p> <p>Basic knowledge of storage systems and provisioning.</p> <p>Knowledge of open source technologies</p> <p>With 1-2 years experiences in the field.</p>	<p>Educational:</p> <p>B.Tech/B.E/MCA/M.Sc (IT/CS/Electronics)/BCA/B.Sc (CS/IT)/JE(CS/IT)</p> <p>Professional /Global Certification- RHCSA (preferred)</p>

Post: Level-2 System Engineer

Job Profile	Skills and experience required	Qualification and Experience
System administration	<p>Intermediate knowledge of Linux Operating system.</p> <p>Installation of various flavours of Linux and configuration.</p> <p>Intermediate knowledge of storage systems and provisioning.</p> <p>Knowledge of open source technologies</p> <p>With 2-3 years experiences in the field.</p>	<p>Educational:</p> <p>B.Tech/B.E/MCA/M.Sc (IT/CS/Electronics)/BCA/B.Sc (CS/IT)/JE(CS/IT)</p> <p>Professional Global Certification- RHCSA</p>

Post: Level-3 System Engineer/Administrator

Job Profile	Skills and experience required	Qualification
-------------	--------------------------------	---------------

System administration	<p>advanced knowledge of Linux Operating system.</p> <p>Installation of various flavours of Linux and configuration.</p> <p>Advanced knowledge of storage systems and provisioning.</p> <p>Knowledge of open source technologies</p> <p>Knowledge of scripting for automation.</p> <p>Ability to debug issues and implement solutions.</p> <p>With minimum of 3 years experiences in the field.</p>	<p>Educational:- B.Tech/B.E/MCA/M.Sc (IT/CS/Electronics)/BCA/B.Sc (CS/IT)/JE(CS/IT)</p> <p>Professional/ Global Certification - RHCSA</p>

8. Data Center Resources

Post: Data Center Technical In-charge

Job Profile	Skill and Experience	Education Qualification
<p>Operation and Maintenance of Data Center IT and Non-IT Infrastructure. Should report to Additional Manager, Amtron.</p>	<p>Should be able to manage Data Center operations and manpower. Should have worked in similar profile for atleast 4 years.</p> <p>Should have good knowledge of Network, Security, Linux, Web Application, Cloud, Monitoring and management tools, UPS and other non-IT infrastructure related to Data Center.</p> <p>Overall experience of minimum 8 years.</p>	<p>B.Tech/BE/MCA/M.Sc/equivalent</p>

Post: Assistant Data Center Technical In-charge

Job Profile	Relevant Experience	Education Qualification
-------------	---------------------	-------------------------

<p>Day to day management, monitoring and reporting of Data Center issues (both IT and Non-IT). Incharge of Shift Engineers, Electrical Engineer and BMS Engineer. Should report to Data Center Incharge.</p>	<p>Should be able to manage Data Center operations and manpower. Should have good knowledge of Network, Security, Linux, Web Application, Cloud, Monitoring and management tools, UPS and other non-IT infrastructure related to Data Center. Overall experience of minimum 6 years.</p>	<p>B.Tech/BE/MCA/M.Sc/equivalent</p>
--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	--------------------------------------

Post: System and Solution Architect/Analyst

Job Profile	Relevant Experience	Education Qualification
<p>Design, Testing and Troubleshooting of Cloud and System and Security Solution. System and Application Vulnerability testing and designing solution to cope up with day to day security threats. Should report to Additional Manager, Amtron.</p>	<p>Should have expert knowledge of System and Application Security, Linux, Web Application, Anti Spam, Cloud, Container Based System, Automation, Monitoring and management, Penetration testing and Security Audit tools related to Data Center Services. Overall experience of minimum 8 years.</p>	<p>B.Tech/BE/MCA/M.Sc(CS/IT)/equivalent. (Red Hat certified preferred.)</p>

Post: System and Cloud Administrator

Job Profile	Relevant Experience	Education Qualification
<p>Design, maintenance and troubleshooting of Cloud and System Solutions. Should report to Data Center Incharge.</p>	<p>Should have expert knowledge of Linux, Web Application, Cloud, Monitoring and management tools. Overall experience of minimum 3 years.</p>	<p>B.Tech/BE/MCA/M.Sc(CS/IT)/JE/BCA/B.Sc (IT/CS)/equivalent (Red Hat certified preferred)</p>

Post: Network Administrator

Job Profile	Relevant Experience	Education Qualification
<p>Design, maintenance and troubleshooting of Data Center Network Solutions. Should report to Data Center Incharge.</p>	<p>Should have expert knowledge on BGP, OSPF, IPv6, MSTP, LACP, VRRP, MPPLS, QoS, VPN, IPsec etc. Overall experience of minimum 5 years.</p>	<p>B.Tech/BE/MCA/M.Sc(CS/IT/Electronics)/JE/BCA/B.Sc (IT/CS)/equivalent.(Network Certification preferred)</p>

Post: Security Administrator

Job Profile	Relevant Experience	Education Qualification
Design, maintenance and troubleshooting of Data Center Security Solutions. Should report to Data Center Incharge.	Should have expertise in Next Generation Firewall, IPS, Gateway Antimalware, AntiSpam, Application and URL Filtering, Network Monitoring and Centermanagement tools, Security Audit Tools. Overall experience of minimum 3 years.	B.Tech/BE/MCA/M.Sc(CS/IT/EIectronics) /JE/BCA/B.Sc (IT/CS)/equivalent (Security certification preferred)

Post: Electrical Engineer

Job Profile	Relevant Experience	Education Qualification
Day to day maintenance of Electrical components related to Data Center.Liasoning with UPS, Genset etc vendors. Reporting issues related to APDCL. Ensuring proper operation of all Electrical Infrastructure of Amtron Data Center. Should report to Asstt Data Center Incharge.	Should have relevant experience of atleast 3 years.	B.Tech/BE/JE (Electrical)

Post: BMS Engineer

Job Profile	Relevant Experience	Education Qualification
Supporting Data Center Incharge and Electrical Engineer.Liasoning with BMS vendor, Presision AC.Ensuring proper operation of BMS, Precision AC and other non IT infrastructure of Amtron Data Center.Should report to Asstt Data Center Incharge.	Should have relevant experience of atleast 5 years.	JE/BCA/M.Sc/B.Sc/equivalent

Post: System Support Engineer (24x7 basis)

Job Profile	Relevant Experience	Education Qualification
-------------	---------------------	-------------------------

Shift Engineer assisting Core Technology Resources 24x7. Should report to Asstt. Data Center Incharge. Should have work experience of atleast 1 years. (**Candidates willing to work in shifts may only apply**) B.Tech/B.E/MCA/M.Sc/JE/BC A/ B.Sc/equivalent

9. Executive Assistant

Job Profile	Skills and experience required	Qualification
Executive assistance in IT Projects	Knowledge on MS Office/ Open Office, e-mail, preparing presentation Drafting office documents Good communication & writing skills in english DTP in Assammes	Graduate in any discipline Computer proficiency certificate (Course duration: min 3 months)

10. GIS Software Expert

Job Profile	Skills and experience required	Qualification
Publishing soon
