Dated: 02/02/24

Notice Inviting Quotation

Sealed quotations are invited from AMTRON empanelled vendors (CERT-IN certified) or affiliated partners of CERT-IN certified vendors who are interested in conducting a security audit of the web application (<https://www.xasipaaputhi.assam.gov.in>) for the Web Portal of IT Localization. In addition to the security audit, necessary certifications must also be submitted. A comprehensive report is also required to be generated, that highlights the findings, and related actions that needs to be taken to remediate any identified vulnerabilities and weaknesses in the target system. Interested parties are requested to submit their quotations adhering to the specified guidelines.

Quotation submission date: 05/02/2024 Time 12.00 PM

Quotation opening date: 12/02/2024 Time 2.30 PM

Project Scope:

The purpose of this NIQ is to serve as a response to the Vulnerability Assessment & Penetration Testing - "VAPT" requirements. A comprehensive report needs to be generated, that highlights the findings, and related actions that needs be taken to remediate any identified vulnerabilities and weaknesses in the target systems. Assurance must be provided by conducting several level and ways of penetration test to focus on identifying and exploiting all vulnerabilities that may currently pose a threat to client's systems, determining which current security measures are in fact effective. The test conducted must be as per CERT-IN norms without any deviation.

The selected firm will be responsible for the following key activities:

1. Conduct a thorough security assessment of the web portal, including but not limited to penetration testing, vulnerability scanning, and code review.
2. Identify and evaluate potential security risks and vulnerabilities.
3. Provide a detailed report outlining findings, potential exploits, and recommended mitigation strategies.
4. Collaborate with our IT team to implement necessary security patches and measures based on the audit results.

Qualifications: Interested firms shall have:

1. Proven experience in conducting security audits for web portals.
2. Familiarity with industry standards and best practices in web application security.
